Location: Lymington, Hampshire

Form of
Contract: JCT 98 CD

Value: £900,000

Civil Engineering and Building

CASE STUDY

PRINTWISE

- The creation of a new headquarters office and printing factory for Printwise Ltd.
- The design was based on a portal frame which was then traditionally clad to the production area and glass curtain walling to the two storey office area.
- Due to the existing ground conditions we were unable to use soak-aways and had to use the formpave drainage system over the extensive car park area to achieve an acceptable solution to the environment agency.
