Civil Engineering and Building

CASE STUDY

A30 CRAWLEY BRIDGE

- Construction of ashlar stone parapets and the installation of 'Tertu', timber safety barrier to an existing, listed, masonry bridge and approaches on the A30 in East Devon.
- Traffic management designed to protect the workforce and maintain the flows on the trunk road
- Temporary works in the river installed in liaison with the Environment Agency under land drainage consent to minimise the flooding impact
- Surfacing, skid resistant treatment and road markings carried out at night under full road closure and diversion routes
- Additional concrete works and landowner accommodation works
