Duration: August 2006 - January 2007

Location: Maresfield, Sussex

Form of Contract: IChemE Amended

Value: £660,000

Civil Engineering and Building

## CASE STUDY

### MARESFIELD

Refurbishment of existing Live WWTW - The works included maintaining the live flows through the works. The package included the formwork, reinforcement and concreting of various process structures.

Twin 6m diameter by 6m deep Primary Settlement Tanks, including earthworks excavation and support.

Associated above ground Distribution Chambers and Flow Pipework.

Twin 8m diameter by 8m deep Humus Tanks, including earthworks excavation and support.

Associated Distribution Chamber, Telemetry and Flow Pipework.

Refurbishment proposal for a RC lining to existing failed Storm Storage Tank - phased with system requirements.

Installation of all new Cable Ducts and Drawpits.

Installation of all new system Flow Pipework and Pressure Pipelines.

Replacement of failed Hard-standing Access Road and Earthwork Landscaping
